About Me

I have a background in Architecture, including the design principles it shares with web design. My main interest is in user-centric design, and the creation of accessible, intuitive, and rich user experience.

Softwares

Illustrator, Photoshop, XD, Figma, Inkscape, Autocad, SketchUp and V-Ray, and ArchiCAD.

Work Experience

2020, worked at Langara College as a marker for Introduction to User Experience Design and Graphic Design for Web.

2020, worked at Langara College through the Student Work Assistance program with a team to adapt the Langara Voice website into a PWA.

From 2015 to 2018, worked as freelance architect and interior designer, focused on renovation of small spaces.

From 2012 to 2013, worked at Oca Studios (a small game design company) with duties ranging from design to sales.

From 2008 to 2010 worked for the Brazilian Ministry of Social Development, holding positions in the Engineering Division focused on office renovations, and as a secretary in Internal Control.

Languages

English and Portuguese

Education

December of 2021 – Post-degree in Web and Mobile Design and Development, from Langara College (designer stream), dean's list for three terms.

2012 – BA in Architecture and Urban Planning, from Universidade de Brasília
